Prevent Child Abuse Kentucky has been the umbrella organization for **STATEWIDE PARENT EDUCATION, SELF-HELP and SUPPORT GROUPS** for over 25 years. During the 2016-2017 fiscal year, funding was distributed to the providers listed below. The counties highlighted in yellow represent counties where services occurred.

- Children’s Advocacy Center of Green River District
- Chrysalis House
- Families First Family Resource Center
- Family Advocacy Center
- Family Enrichment Center
- Family Nurturing Center
- Harlan Independent School District Family Resource Center
- Home of the Innocents
- Imani SKY Families Program
- Lake Cumberland Community Action Head Start
- LKLP Community Action Council, Inc.
- NECCO: Hazard, Grayson, and Marshall
- The Nest - Center for Women, Children and Families
- The Sunshine Center (Frankfort Area Children’s Council)
- Tri-Co Mentoring (Cumberland River Behavioral Health)

Through this program, participants are able to discuss common concerns and challenges they face as parents and caregivers. Parents learn the basics of child development and skills necessary to meet the needs of their children. Last year **14,158** instances of parent education were provided across Kentucky.

PCAK’s parent education programs utilize a nationally normed evaluation tool to measure changes in parenting and child rearing attitudes. Statewide, participants who complete the program show an overall reduction in high risk behaviors and beliefs across all five measurable constructs: Developmental Expectations; Parental Level of Empathy; Belief in the use of Corporal Punishment; Reversing Parent-Child Family Roles; and Oppressing Children’s Power and Independence.

“I have really enjoyed the class. I have learned some valuable information on how to control my anger and the situation. I wouldn’t change anything or the teachers.”

“I am extremely grateful for this program. It has helped me to better communicate with my children and has given me ideas about how to communicate with my own mother. It has given me a lot of useful information that I can actually understand and can utilize. Thanks for your time!”

“This was really helpful. My child listens a lot more now.”
