PREVENTION WORKS:

“96.34% of people reported our trainings prepared them to prevent child abuse and neglect in their daily work”

“When I found out that I was being required to take a parenting class, I was not very happy about it, to say the least. After my first class, my feelings completely changed. I was made to feel completely comfortable, like I had not only a support group, but also friends. I never once felt judged. I learned how to parent in a way that is creative and encouraging for both me and my kids. I've learned so much about dealing with discipline and praise. The class offered the support that I didn't even realize I needed.”

-Parent Education Class Participant
PREVENTION IN ACTION:

“This class helped me to love myself. I recommend this for all parents.”

15,495 incidents of parent education and support group services

157,393 resources and materials distributed

453 Child Abuse Prevention Month events and activities

236 Partners in Prevention

4,979 individuals reached through trainings and presentations

639 people attended the 23rd Annual Kids Are Worth It! Conference

“This conference gave a rounded vision of needs for families and agencies with the opportunity to become the solution in action.”

Pediatric Abusive Head Trauma and Safe Sleep

Through a grant from WellCare Health Plans, Inc., PCAK was able to create and send a Pediatric Abusive Head Trauma Prevention and Safe Sleep video to Kentucky’s birthing hospitals. All new parents at these hospitals will see the video.
